

Duck Hunt Remix

Student graphic organizer

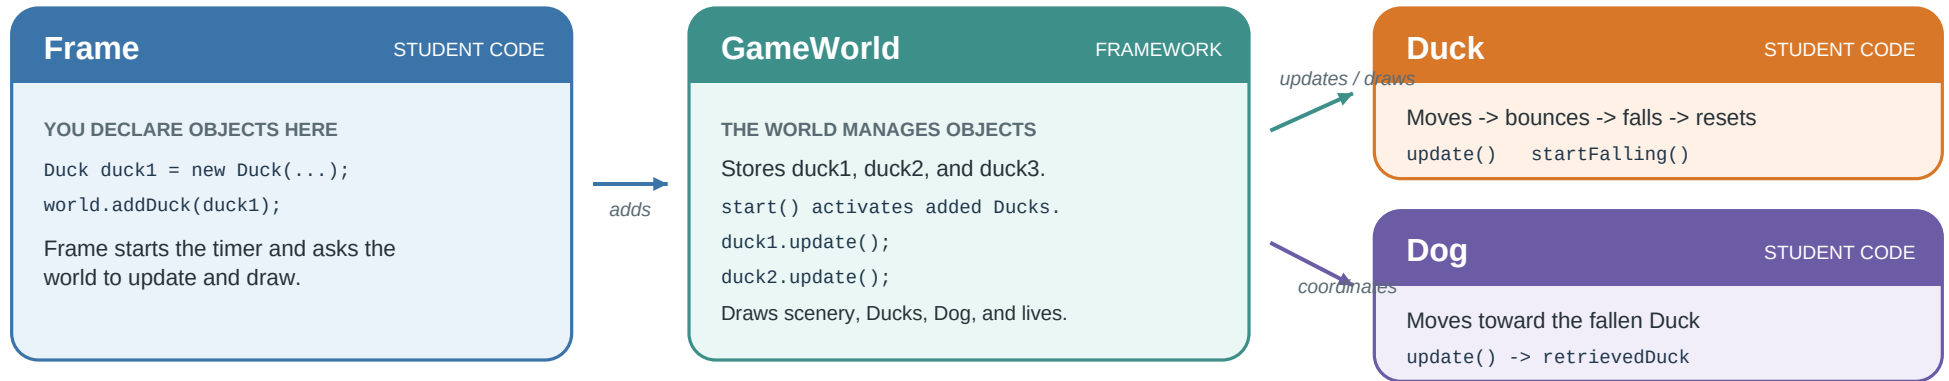

How the objects work together - use this while you code

Name: _____

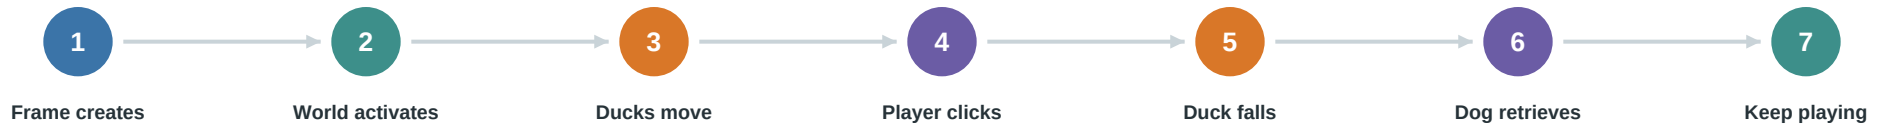

My theme: _____

My target: _____

My Dog: _____

GAME SEQUENCE Follow the story when you test your code

CHANGE -> CHECK

Run after every row

I CHANGE	I DO	I SHOULD SEE	CHECKED
Duck.update()	Move or bounce	The target changes position	☐
Duck.startFalling()	Click the target	The target falls to the ground	☐
Dog.update()	Move toward targetX	The Dog retrieves the target	☐
Frame.java	Declare and add Duck	Another target appears immediately	☐
GameWorld.paint(g)	Draw layers	Scenery stays behind objects	☐

SAVE -> RUN FRAME -> TEST ONE BEHAVIOR -> RECORD WHAT YOU SEE

Small changes make debugging easier.
